Public Comment

Charlie Williams thanked the supervisors for taking care of the abandoned trailer. He also thanked them for putting the minutes on the webpage but stated March and April are missing.

Cindy Hoffman thanked Mike Krolkowski for the help with a contractor situation.

Mr. Bodman asked about the Dennis Williams Subdivision mentioned in the minutes and Larry stated he reviewed the plans and they bought another parcel and are combining the two properties. He approved the plans and sent to Columbia County.

Mr. Bodman asked why the Ag Security list was changed for 2012 to 2014. Lisa stated that the one from 2012 was just typed up from changes that were handwritten on a previous version and stated that there were a number of versions. The ones from 2014 was the one compared to what the county had on file when she worked with them obtaining a correct list of Ag Security properties. Though the names of the property owners may have changed the property remains in the Ag Security area unless the new owner asks to have it removed.

Kim Orzolek asked about the Orzolek farm since technically is now two separate properties. Mr. Turowski stated that the original property owned by Josephine Orzolek that was subdivided should still remain in the Ag Security area.

Mr. Turowski suggested the township use a specific application form for amendments and/or additions to an agricultural security area so that the person submitting an application provides all of the relevant information. Mr. Turowski stated that the township should adopt a resolution to put a formal process in place for this purpose. Mr. Turowski stated the township needs to appoint an Ag Security Board as part of the overall process as well. Mr. Turowski stated that the chairman of the supervisors is one member of the board and he needs to appoint four other members in order to establish the board and identified the criteria the persons appointed to the board need to meet.

Mr. Bodman thanked the supervisors for mowing back further this year which makes is safer as well.

Mr. Bodman asked Larry Frace how he goes about fixing a situation with the Shellhamer property since they planted new trees that will be over on his property when they are mature. Larry stated that he will have to look at where the trees are planted.

Mr. Edwards asked about the jake brake ordinance. Mr. Turowski did some research and the township cannot adopt an ordinance since everything needs must go through the state first and studies must be done. Since only one person complained the supervisors will not be pursuing.
