Public Comment

Mr. Bodman stated that he had two major barn fires, one July 21, 2002, and one on July 20, 2005, and he was surprised by the number of people that were not familiar with what happened. Mr. Bodman stated that the general comment is that they were a result of hot hay which caused spontaneous combustion. Mr. Bodman wanted it stated that both fires were deemed by the fire marshal to be arson.

Mr. Bodman also stated that at the November meeting there were concerns about the long dark hallway in this building and noticed that the light switch at the top of the stairs is behind the door and he suggested the light switch be moved from behind the door for safety reasons.

Mr. Bodman asked if it was determined if the roads in Wonderview are private roads or where they dedicated to the township. Randy stated that Bob Baylor is working on that issue, and he is not at the meeting tonight due to .

Mr. Bodman asked the status of the yellow truck repairs. Randy stated that the repairs are done, and the truck was inspected and back in service, but now the front u-joints are out.

Mr. Bodman asked about the status of the new tractor. Randy stated that it is scheduled for delivery with week of January 7th. The supervisors decided to trade in the International and keep the Kubota since it is working now.

Mr. Bodman stated that he is concerned with outside groups such as the Boy Scouts and Historical Group using the upstairs rooms in the township building since the police office is also located there. He stated that if a hostage situation would take place, it is a liability concern and there is not a police holding room. He also noted that one of the officers already had concerns with the Boy Scouts using a room if he is bringing someone back. Randy stated that he had requested a liability certificate from the Boy Scouts.

Mike Krolikowski stated that if the police were bringing someone up to their office, they would be handcuffed from behind and if they are violent, they would be secured in the car and they would call for additional help before bringing them into the building. Mike stated that they would remain cuffed at all times and leg restraints would also be used if needed. Mike also stated that regulations are changing as a result of the George Floyd incident as far as using different tactical moves. Philip Savidge stated that he is in the process of updating all the

police policies and all officers will be informed of any new changes.

Dave Broadt stated at the November meeting it was discussed about the Fire Department's finances and he stated that any funds that are appropriated by the township to the fire company are reported in the township's financial report. Dave stated the township pays for the fire company's liability and workers' compensation insurance, phone, and fuel.

Dave stated at a previous meeting he had stated that the fire company would like to use @ \$7,500 of the fire tax dollars to pay for a security and video system for their building and they also received a quote for \$29,000 for a new roof. Dave stated the three township supervisors attended the November Fire Company meeting and gave their input that they would like the fire company to provide a minimum of three bids for expenses they are asking to use the fire tax money for.

Dave stated that since that meeting the fire company decided that they will not request the fire tax funds be used for the security system or roof, they will use the money they have made from their raffles. They will split the roof into two portions for the work.

Dave stated they decided to build up the fire tax fund to @ \$100,000 and then look to purchase a tanker truck since their current one is a 1988 with 155,000 miles barring any major engine problems sooner. Dave's question to the supervisors was how they are expected to obtain three bids for a used truck. Randy stated that they would have to write up a bid notice with the specs and advertise in the paper. Mike Krolkowski stated that they could also look into Municibid for equipment.

Dave also stated that Mr. Bodman sent a Freedom of Information Act request to the fire company and the fire company replied asking for a 30-day extension. Dave stated that since then the department developed and approved to put a policy in place that their financials are closed to members only.

Dave stated that he spoke to the Office of Open Records, and they have turned down Mr. Bodman's request and he stated that he encouraged Mr. Bodman to appeal since there are no fees involved, but also stated that so far everyone who appealed these types of requests lost so far.

Dave also stated that if someone asks to become a member of the fire company there is about a 6-month process, they go thru, such as background checks and applications, then the request goes to the department for a vote to recommend or not recommend membership. They do not classify members as social members or active members and they do not recruit or advertising for new members.

Randy stated that the five minutes for discussion were up, and they would move on to other business.
