**Public Comment**

Matt Bond stated that he received a zoning violation for his property at 335 Church Road and wanted to know what he needed to do since he just put a driveway in and has a bus parked there. Larry Frace stated that under the new zoning ordinance the property is under the village district rules and since there is no building on the property it would fall under the category of a vehicle equipment rental, bus limo, taxi area. He stated that Mr. Bond has two options if he disagrees, file an appeal to the zoning hearing board or apply for a vehicle rental use variance. Larry stated that there is no grandfather clause to the new ordinance and since the old trailer was torn down those are the two options. Mr. Frace stated he also received a complaint about the property.

Scott Welsh stated that he received a letter from Mr. Frace stating that a parking pad on his property that has been there for approximately three years, now is in violation since he did not get a driveway permit. Scott stated that Bobby Frey did the work three years ago when he was a supervisor, and since the ground does not touch the township road, he did not need a permit. Scott stated that he called Mr. Frace on April 12<sup>th</sup> but has never heard anything from Mr. Frace’s office. Larry Frace stated that he talked with Mr. Frey, and he did away with the issue. Mr. Welsh stated it would have been nice to know that. Mr. Frace stated that the issue arose from two complaints he received on it.

Mr. Bodman asked if there has been any consideration given to his suggestion of installing time clocks for hourly employees. He stated that there are timeclocks that are available that would register with Lisa’s computer. Bob stated that other townships continue to use timecards as well. Todd Keyser stated that their business just started using them and they seem to work well.

Mr. Bodman also asked about the status of the second police car. Phil stated that they are still talking to Montour Township and the vehicle may be available next month.

Dave Broadt stated that the Fire Company wanted to thank the township for use of the grounds for their egg hunt which was very successful.

Charlie Williams stated that he saw that the issue of the trees on Fisher Run Road was taken care of. Bob Baylor stated that he got a hold of the property owner and made him aware of the concerns and he was nice to work with and he had 17 trees taken down and the township did not have to do anything.

Jesse Bredbenner asked if he maintained his road would the township pay him for doing it. Bob stated that they

would have to approve his time, so he would have to keep track of his time and use approved machinery.

Jesse also asked Phil Savidge if the police go back and patrol on the railroad bed off of Fisher Run Road and Phil stated that only what they can drive on. They do drive back on state game lands off of Fire Tower Road. Jesse stated that atv's and cars continue to drive on the railroad bed behind his property all hours of the night and it is a problem. The township cannot do anything to stop it since the railroad bed is private property. Jesse stated that he never got an answer as to WHO owns the railroad bed. Jesse stated that he is going to start going out on his property and just starting shooting rounds off straight up in the air to try and scare them away, if nothing can be done. Mr. Turowski stated that the township has no authority to do anything since the railroad bed is privately owned.

Matt Bond asked if the pipes on Church Road were done, and Bob Baylor stated yes, the pipes were put in and they will put some rip rap in once the ground settles.

Candice Otterman asked if she could have permission to pick up trash along Rt. 339 and leave it overnight until it can get picked up. She and her son walk a lot and see more and more trash and would like to do it to keep the township looking nice. Pam stated that Rt. 339 is a state road, and she would have to contact PennDot in regard to that. Matt Turowski suggested she reach out to the District Office, and they should be able to help her. Bob stated that if she gets permission and they have bags ready, to let the township know and they will pick them up and appreciate her help.
